

**We're looking for a Part 2 / Part 3 Architectural Assistant and a qualified Architect to join our studio in Huddersfield.**

### **About us**

Acumen is a small architectural practice based in Huddersfield, working across commercial and bespoke residential projects. We're a close-knit studio with a hands-on approach; taking projects from early concept through to delivery and staying closely involved at every stage.

This is a role for someone who enjoys responsibility, wants to see projects through properly, and is comfortable working across different scales and sectors.

### **The Opportunity**

You'll be involved in a mix of commercial and high-end residential work, contributing across all RIBA stages. The role includes design development, technical delivery, and day-to-day project coordination.

### **Desirable Skills**

- Strong Revit capability (essential)
- Experience in commercial and/or bespoke residential projects
- Confidence working across multiple project stages
- Good communication skills and a collaborative approach
- An interest in project running / project management
- An interest in interior design

Whilst great to have, we are willing to support the development of these skills where appropriate if applying from a Part 2 and 3 perspectives.

### **In Return**

- Salary expectations (we're happy to discuss)
- 20 days holiday (exc. Bank holidays), plus Christmas shutdown with scope to increase this through long service
- Generous On-site Parking Facilities
- Company Pension Scheme
- Flexible Working
- Defined career opportunities and progression to shape your role as the studio grows
- Contemporary office environment located down by the canal
- Regular organised CPD and Social Events
- Exposure to full project lifecycles
- A small, friendly supportive team environment

We're not a corporate studio our size means you'll have a genuine impact on projects and the direction of the studio.

### **Interested in applying?**
